

本校擁有自己的防火牆，自我管理中，目前尚未有申請開埠的程序

The screenshot displays the Palo Alto Networks management console. The main area shows a list of security rules with the following columns: 名稱 (Name), 標籤 (Tag), 類型 (Type), Zone, 位址 (Address), 使用者 (User), HIP 設定檔 (HIP Profile), Zone, and 目的地 (Destination). The rules listed are:

名稱	標籤	類型	Zone	位址	使用者	HIP 設定檔	Zone	目的地
14 EARTHQUAKE TO D...	none	universal	any untrust	59.125.205.208 59.125.210.1 61.59.9.233 61.59.9.234 61.216.48.74 61.216.56.193 61.216.90.103 更多...	any	any	any trust	
15 GlobalProtect to trust	none	universal	any GlobalProtect	GlobalProtectTunnel	any	any	any trust	an
16 allow 163-216 to syn...	none	universal	any trust	163.26.199.216	any	any	any untrust	
17 stop 210.70.121.246	none	universal	any trust	163.26.199.17 210.70.121.246	any	any	any untrust	an

19 allow inside to han l...	none	universal	any trust	any	any	any	any untrust	

At the bottom of the interface, there are navigation buttons: 新增 (Add), 刪除 (Delete), 複製 (Copy), 取代 (Replace), 回原 (Reset), 啟用 (Enable), 停用 (Disable), 移動 (Move), and 反白顯示未使用的規則 (Show Unselected Rules). The status bar at the bottom indicates the user is logged in as 'dc' and the last login time was 07/22/2019 12:29:25.
